

2012-13 MIT Annual Parent Satisfaction Survey

Approximately 250 respondents

Parents,

Please take a few minutes to complete the following annual parent satisfaction survey. This survey is given annually and is used as part of the strategic planning process to measure stakeholder satisfaction with MIT Academy (similar surveys are given to students and staff). Results are compared to previous years' results to measure positive or negative trends. Survey results will be posted on the MIT website within two weeks of the survey dissemination. The survey and all included comments are anonymous.

Each family should complete one survey **per child** attending MIT. For the sixth choice, leave the bubble blank and it will be recorded as "F."

Please return the survey and scantron to any staff member when complete.
